CHDPI CAPACITY STATEMENT

**Centre for Human Dignity
and Peace Initiative Foundation**

Amplifying Voices for Human Dignity

CHDPI

Introduction

The Centre for Human Dignity and Peace Initiative Foundation (CHDPI) is a women-led, non-governmental, and non-profit organization committed to advancing peace, protection, and sustainable development in vulnerable communities. Founded on the principles of dignity, inclusion, and resilience, CHDPI works to create an environment where every person, especially women, children, and youth, can thrive free from violence, discrimination, and neglect.

Driven by its **vision** of “A world where human dignity is protected, peace prevails, and communities thrive in security, equality and prosperity,” and its **mission** “To promote human dignity, peace building, and sustainable development through inclusive programs, advocacy, partnerships and community empowerment.” CHDPI continues to demonstrate leadership in community transformation.

Through integrated programming in gender-based violence, peacebuilding, general protection, livelihoods, Housing, land, and property, and non-food Items etc. The organization builds local capacity, strengthens social cohesion, and supports sustainable recovery efforts.

Objectives

Mission

To promote human dignity, peace building, and sustainable development through inclusive programs, advocacy, partnerships and community empowerment.

Vision

A world where human dignity is protected, peace prevails, and communities thrive in security, equality and prosperity.

Implementation Approach

CHDPI adopts a community-centered, participatory, and rights-based approach. Programs are designed in collaboration with affected communities, local authorities, and partners to ensure relevance, ownership, and sustainability.

Core competencies/Thematic areas

Livelihood and Economic Empowerment

CHDPI promotes sustainable livelihoods and economic resilience for vulnerable women, youth, and households affected by conflict and poverty. Our interventions include vocational skills training, small business development, savings and loans groups, and startup support to enhance income generation. We prioritize women-led initiatives and ensure inclusive access for Persons with Disabilities, enabling beneficiaries to achieve self-reliance and long-term economic stability.

Protection and Human Rights

CHDPI works to protect the rights, dignity, and safety of vulnerable populations, including women, children, Persons with Disabilities, IDPs, returnees, and host communities. Our protection programming focuses on community-based protection mechanisms, legal awareness, case management, psychosocial support, and referral services. We adopt a rights-based and survivor-centered approach that strengthens community resilience and promotes accountability.

Gender Based Violence (GBV) Prevention and Response

CHDPI delivers comprehensive GBV prevention and response interventions aimed at reducing risks and supporting survivors. Our programming includes gender-transformative awareness, survivor-centered

case management, psychosocial support, safe referrals, and community engagement to address harmful norms. We work closely with community leaders and service providers to ensure safe, confidential, and inclusive services for women, girls, and other at-risk groups.

Nutrition Support and Programming

CHDPI implements nutrition-sensitive and nutrition-specific interventions targeting vulnerable groups, particularly women and children. Our approach includes community nutrition awareness, screening and referrals, infant and young child feeding (IYCF) promotion, and integration of nutrition into livelihoods and WASH programming. These efforts aim to reduce malnutrition and improve overall health outcomes in fragile and conflict-affected settings.

Water, Sanitation and Hygiene (WASH)

CHDPI delivers inclusive WASH interventions to improve access to safe water, sanitation facilities, and hygiene practices in underserved communities. Our programs include water facility rehabilitation, hygiene promotion, sanitation infrastructure support, and community-led behavior change initiatives. We ensure that WASH facilities are gender-responsive and accessible to Persons with Disabilities, promoting dignity, safety, and public health.

Core competencies/Thematic areas

Health and SRH

CHDPI contributes to improved health and well-being of vulnerable populations through integrated community-based health and SRH interventions. The organization promotes access to essential health information and services, with particular focus on women, girls, adolescents, and other at-risk groups. Our interventions include SRH awareness and education, maternal and child health promotion, hygiene promotion, and referrals to functional health facilities. CHDPI works closely with community leaders, health actors, and trained volunteers to address harmful practices, reduce health risks, and strengthen community knowledge on preventive healthcare, dignity, and informed decision-making.

Non-Food Items (NFI)

CHDPI supports crisis-affected households through the provision of life-saving Non-Food Items (NFIs) aimed at restoring dignity and improving basic living conditions. The organization conducts needs-based assessments to ensure targeted and appropriate distributions for internally displaced persons (IDPs), returnees, and vulnerable host communities. NFI interventions prioritize women-headed households, people living with disabilities (PLWD), older persons, and families with young children. CHDPI integrates accountability, community feedback mechanisms, and protection principles into all NFI responses to ensure transparency, safety, and inclusiveness.

Child Protection

Child protection is a core area of CHDPI's work, with a strong focus on safeguarding children from abuse, neglect, exploitation, and harmful practices. The organization implements child-centered interventions such as child protection awareness, community sensitization, and psychosocial support activities. CHDPI collaborates with caregivers, community structures, and local authorities to strengthen child protection systems and promote children's rights, safety, and well-being. Special attention is given to vulnerable children, including displaced children, survivors of violence, and Children with Disabilities.

Peace Building

CHDPI contributes to peace building by promoting social cohesion, conflict prevention, and peaceful coexistence within communities affected by displacement and conflict. The organization facilitates dialogue, awareness sessions, and community engagement activities that foster mutual understanding, tolerance, and collaboration among diverse groups. CHDPI also engages in coordination platforms and working groups to strengthen reintegration planning, information sharing, and community acceptance. Through inclusive programming that engages women, youth, traditional leaders, and community stakeholders, CHDPI addresses the root causes of conflict and supports community-led solutions for sustainable peace and resilience.

Core competencies/Thematic areas

Mine Action

CHDPI supports mine action efforts through community-based mine risk education and awareness activities in conflict-affected areas. The organization works to reduce the risk of injury and death from explosive remnants of war by educating communities—especially children, women, and displaced populations—on safe behaviors and risk avoidance. CHDPI collaborates with relevant actors to strengthen referral pathways and ensure that affected communities receive timely information and support to enhance safety and protection.

Education and Learning Support

CHDPI promotes inclusive, safe, and equitable access to quality education for children, adolescents, and other vulnerable populations affected by conflict, displacement, poverty, and other humanitarian challenges. Our interventions include support for formal and non-formal education, accelerated learning, back-to-school initiatives, provision of learning materials, teacher capacity strengthening, and community engagement to promote school enrolment, retention, and completion. We prioritize the inclusion of girls, children with disabilities, displaced children, and other marginalized groups, while promoting safe and protective learning environments that strengthen resilience and improve learning outcomes.

Targeted Beneficiaries

Persons with Disability

At CHDPI, we are committed to fostering an inclusive environment for all individuals, including Persons with Disabilities. We recognize the unique challenges faced by Persons with Disabilities and ensure their active participation in all our projects. Our approach integrates accessibility, equal opportunities, and tailored support to ensure that are not left behind. By prioritizing inclusivity, we strive to protect the rights and dignity of every individual within the communities we serve.
